have done some research on

procrastination, and it seems to me that there are several ways it can be

overcome. One of the most

important things to remember, and certainly one of the easiest, is to not procrastinate about procrastinating.

If we try to stop procrastinating by trying to force ourselves to do

something, then we are going to just keep procrastinating. I know this is

not the way it works for me, and I

think you will find this is not the way it works for you either. Try it for yourself and see if it helps.

Another great way to stop procrastinating is to just make sure that you are doing one small, meaningful task every day. It doesn't matter how small the task is; it 2d92ce491b
