Borrowing gameplay mechanics and aesthetic from Tropico, Wasteland combines real-time strategy with a simulation-like element and exploration of a post-apocalyptic sandbox environment. Titan gods of the pantheon have been slaughtered by the Rogue Angel. Their mighty empire has crumbled. All that remains is a monster-ridden wasteland and a few remnants of their civilisation. A hero born of the new world must fight to restore order, and create a new empire. You'll build your home, develop a town, trade, find resources, explore, build wonders, and conquer. [ mod for download ] In the wasteland, you'll face some very unique challenges. The first is a constantly changing landscape. The desolation that has overtaken the world is ever-changing, making it vital to constantly adapt and develop new strategies. Another unique aspect of Wasteland is the exploration gameplay. There are no clear pathways, just walls of stone. And, when exploring, it's up to you to choose your path. Sometimes you'll find a treasure, but other times you'll encounter hazards. Wasteland is a game that comes packed with adventure, discovery, and empire building. The adventure starts off with a hero asking himself "what to do?" Will you build a city? Will you conquer the wasteland? It's up to you! Fetch Cyberscape Titan gods of the pantheon have been slaughtered by the Rogue Angel. Their mighty empire has crumbled.
