There is an account that I am replying to that has numerous personal attacks. I am neither a lawyer nor a litigator. However, I have just spent most of my free time for more than a year or two answering that person's questions. Because of the nature of my day job, I have a lot of free time on my hands. As a result, I've spent more time on answering than I would have otherwise. This has required that I sacrifice personal time, since I have to keep answering these questions. I've even come to like the person. I am wondering if I could get an injunction or other civil order forcing the account to cease making personal attacks. I have no real intent to sue this person, and I'm also unaware of any ongoing civil action against them, 2d92ce491b
