Wireshark - Decrypt HTTPS

## Sharing A PCAP With Decrypted HTTPS

How to Decrypt SSH traffic. By David. It is probably not a secret.. SSH offers all-layer encryption, due to the nature of packet encapsulation. They can be used to identify, trace, and decrypt data transferred over HTTP. Some users may be willing to decrypt all traffic they send and receive. For the firewalls we have mentioned (NetScaler / PRTG / et seq.).

```
File sharing protocol (SFTP, FTP, the old .Q: How to get the class of an interface? I have the following problem: I have a class (let's call it MyClass) which implements an interface (let's call it IMyInterface) public class MyClass : IMyInterface { public MyInterface MyMethod() { return new MyInterface(); } public MyOtherMethod() { // do something } } public interface IMyInterface { MyInterface MyMethod(); MyOtherMethod(); } This class should only be used for calling "MyMethod". In addition I have a class (let's call it MyOtherClass) which implements both MyInterface and IMyInterface public class MyOtherClass : IMyInterface, IMyInterface { public MyOtherInterface MyMethod() { return new MyOtherInterface(); } public MyOtherOtherMethod() { // do something } } The problem is that I want to call "MyOtherMethod" of "MyOtherClass". The problem is that I can't do this: IMyInterface MyClass = new MyClass(); How can I get a reference to MyClass from MyOtherClass? I would like to avoid creating a new instance of MyClass for this. A: You can't get a reference to MyClass from MyOtherClass; there is no relation between those two classes. If you want to get the type "MyClass" from somewhere, it might make more sense to define it as an interface, where MyClass is a d0c515b9f4
```

Sharing a .pcap is attached to this document. . Share a RTP Packet Capture, HTTP Traffic Sniffer, and Audio.
